

## **Stevenage Bioscience Catalyst, an incubator in Big Pharma's back yard**

Martino Picardo, CEO Stevenage Bioscience Catalyst

Host: Jesús Purroy, PCB

29 de Juny, de 10:00 a 13:00 a la Sala 4, Torre I

Stevenage Bioscience Catalyst campus is a unique bioscience community created to provide small biotech and life sciences companies and start-ups with access to the expertise, networks and scientific facilities traditionally associated with multinational pharmaceutical companies. It is located inside GSK R+D site in Stevenage.

Dr Picardo will discuss the model of this incubator based on open innovation, in order to explore opportunities with the Catalan biotechnology community. This is of interest to companies as well as to science parks.

One-to-one meetings with Dr Picardo are available upon request ([direcciocientifica@pcb.ub.cat](mailto:direcciocientifica@pcb.ub.cat)).
